A screenshot of a web browser window. The title bar reads "Proxy Report (30.Aug 97 00:00:18 - 06.Jun 02 21:07:05) - Phoenix". The address bar shows "http://cord.de/tools/squid/calamaris/calamaris-2.h" and "calamaris". The main content area features a logo with a red 'R' inside a blue circle, followed by the text "Proxy Report" and the date range "30.Aug 97 00:00:18 - 06.Jun 02 21:07:05". Below this is a list of links: Summary, Incoming request peak per protocol, Incoming transfer volume per protocol, Incoming requests by method, Incoming UDP-requests by status, Incoming TCP-requests by status, Outgoing requests by status, Outgoing requests by destination, Request-destinations by 2nd-level-domain, Request-destinations by toplevel-domain, TCP-Request-protocol, and Requested content-type. The status bar at the bottom says "Done".
